9" AC/DC Combination TV/VCR

CCC090AT

Programming & Record/Playback Features

One-Touch Record

Record up to 8 hours or to the end of the tape with the touch of a single button. Each touch of the OTR button adds 30 minutes of additional recording time.

8-Event/1-Year Smart Programming

Remote Control Onscreen Menu Programming

Picture

SQPB (S-VHS Quasi-Playback)

A revolutionary video playback technology that allows you to watch video-tapes recorded in the S-VHS (Super-VHS) mode without buying expensive S-VHS equipment.

Digital Auto Tracking System

When tape playback begins, this feature automatically seeks the optimum tracking position in the tracking range, and the optimum audio signal tracking position for clearest picture and sound. Buttons on the remote transmitter give you manual control should tracking adjustments be necessary.

Auto Head Cleaner

Convenience

ShowGuard™ Timer/Programmer Backup Memory–Indefinite!

Now all your timer/programming is safe, regardless of power outages. Information is stored indefinitely in the system EEPROM.

SmartClock™ with Time Zone Select

This menu-driven feature automatically maintains the correct time, regularly checking and updating the time if necessary. It also resets the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their cable service provider or broadcaster.

Front Panel Menu Access

Access most menu operations conveniently and quickly through the front panel of the VCR.

Daylight Savings Time Adjustment

This menu-driven feature automatically compensates for Daylight Savings Time changes in early April and late October so you don't have to reset the clock twice a year. Simply activate the Daylight Savings Time option in the Set Clock menu and forget it!

Closed Caption

Allows the hearing impaired to read dialogue and narratives (on Closed Caption telecasts) without the use of an external decoding device. Excellent for development of language skills and private viewing without disturbing others.

AC/DC Operation with Car Cord

Using supplied cords, this model operates on both ordinary household 120-volt current (AC) or direct current (DC) available through car, boat, or RV.

Automatic Channel Setup

The VCR tuner scans through television frequencies, automatically storing active broadcast channel into memory. Then, only active channels programmed into memory are tuned using the channel up/down buttons on either the remote or front panel of the VCR. Automatic channel preset can be repeated whenever desired, should new channels become available. Channels can be manually added or deleted.

Front Panel Audio/Video/Game Inputs

Enjoy the added convenience of recording tapes directly from a camcorder to the VCR portion with a full color monitor built-in. And as a bonus, accessory video equipment such as a video game, DVD Video player, or Web browser can be connected for direct playthrough to the TV section.

181-Channel FS Tuning

Bilingual (English/Spanish) Onscreen Function Display

Onscreen Real-Time Counter

Sleep/Wake Timer

Earphone Jack

A-B Repeat Play

Indefinite Repeat Play

Rapid Start Mechanism

Memory Rewind/Off

Dew Sensor

Detachable Sun Screen

Special Effects

15x Forward/Reverse Search

Search in forward or reverse mode at 15 times normal playing speed in SLP. The search feature provides continuous forward or reverse search with a single touch of the control. A second touch stops the search operation and returns the unit to the Play mode.

Remote Control (Remote #N0340UD)

Unified Multifunction Remote

Controls all operating features and functions of both TV and VCR sections of this Combi with armchair convenience–including all special features, random channel access, and channel scan up/down, providing an LED virtual "handshake" for confirmation.

Full Auto-Feature Package

- Power On
- Digital Auto Tracking
- Auto Play
- Auto Repeat
- Auto Rewind
- Auto Eject
